SUMMARY

Software Engineer with 3+ years of experience building high-quality, maintainable web platforms using Laravel, Inertia, and Vue. Skilled in delivering new features, fixing bugs, and responding to customer support requests.

EXPERIENCE

Full Stack PHP Developer

Church Social Inc.

⌚ 07/2022 - 10/2025 🌐 Remote

- Contributed to the design and development of new features across the Church Social codebase.
- Maintained and modernized an extensive codebase, completing major upgrades including a seamless migration from Vue 2 to Vue 3 with zero reported issues.
- Added over 3,500 tests (47,000+ assertions) which significantly improved test coverage and enabled the team to ship new features with far greater confidence.
- Developed and integrated a wide range of customer-requested features, improving usability and expanding the platform's capabilities.
- Earned frequent customer praise for being exceptionally helpful and responsive.
- Wrote customer-focused documentation explaining new and existing app features.
- Helped design and implement a few new features for the Church Social mobile app, working with Expo and React Native.
- Represented Church Social at various conferences in a sales-focused role.

Teacher | Vice Principal

Maranatha Christian School

⌚ 08/2019 - 07/2022 🌐 Fergus, ON

- Led staff development by conducting teacher evaluations and mentoring teachers to improve classroom performance.
- Participated in hiring decisions, interviewing and selecting new teachers.
- Took on day-to-day leadership responsibilities, helping maintain a positive and effective school environment.

OTHER EXPERIENCE

- Created Vincentians (vincentians.laravel.cloud), an online platform for tracking Vincentians' community service, including vouchers, family visits, and visit details.
- Developed and maintained WordPress websites for churches (fergusnorth.ca) and schools (echs.ca).
- Built a secure backend for canrc.org in 2023, enabling administrators to manage churches, users, and post news and assemblies, while allowing ministers and clerks to efficiently manage personal and church information.
- Maintain a Laravel backend control panel for Belwood Sailing Club (portal.newblsc.ca/login),
